Custom Signature Facial For Face Or Back

Our Custom Facial will exfoliate, deep cleanse, hydrate, soothe and protect. By using enzymes, AHA's and technologically advanced tools, we force the skin into generating new collagen at deeper levels. We use clinical strength products to help each client achieve the healthy, youthful skin they are looking for. We will make product recommendations based on the client's concerns, so results are quicker and longer lasting.

HydraFacial MD™

The HydraFacial MD™ resurfacing procedure thoroughly cares for your skin, providing cleansing, exfoliation, extraction and hydration; all while Vortex-Fusion adds antioxidants, peptides, and hyaluronic acid deep into the skin. HydraFacial MD™ is a non-invasive procedure that delivers instant results with no discomfort nor downtime. Great for the face, neck, and/or body, this procedure is soothing, hydrating and immediately effective.

The best part – it's not just a quick-fix-it procedure. The HydraFacial MD™ improves the quality of your skin, actually helping to make it healthy.

SilkPeel Diamond Microdermabrasion

A non-invasive skin rejuvenation procedure offering advanced exfoliation and the delivery of condition-specific topicals. Operating on a closed-loop vacuum system, the Silk Peel's diamond treatment head exfoliates the skin while simultaneously delivering a topical dermaceutical at a controlled intensity. The Silk Peel stimulates new cell growth and addresses your specific skin condition, giving your skin the revitalization you want.

Advanced Microdermabrasion

Experience a medical-grade Microdermabrasion treatment unlike any other. The Advanced Microderm System diminishes fine lines, combats hyperpigmentation and dramatically improves the texture. We use the Diamond-Tip in conjunction with all-natural sodium bicarbonate (baking soda) crystals, which will gently but effectively slough off dead skin to reveal a smooth and luminous complexion.

Sensi Peel by PCA

A great place to start if new to peeling! This peel is formulated as a unique peeling option for all skin types (including sensitive, redness prone skin and even Rosacea). This multi-faceted and skin brightening treatment uses a gentle 6% TCA solution blend, which improves surface texture and brightens the skin while helping to promote an even skin tone.

Micro Pen - MicroNeedling

A new innovation in aesthetic medicine for treatment of fine lines, acne scars and over all improvement of the skin's texture, tone and color. It also has a positive effect on hyperpigmentation, acne scars and stretch marks. During the procedure, tiny needles are used to stimulate collagen and elastin. MicroPen also creates channels which allow serums, creams and topical gels to be absorbed more effectively, which enhance their effects in the deeper layers of *the skin*.

MicroNeedling with PRP®

Microneedling (also known as collagen induction therapy) is a minimally invasive treatment to rejuvenate the skin. A device with fine needles creates tiny punctures in the top layer of the skin, which triggers the body to create new collagen and elastin. We combine PRP (platelet-rich-plasma which is a natural source of growth factors) together with the micropen technology, in order to create channels that allow the PRP to travel deeper. Results include improved skin texture and firmness, as well as a reduction in the appearance of scars, pore size, hyperpigmentation and stretch marks.

Fire and Ice Polish

This luxurious clinical treatment system combines two professional masques. The Intensive Resurfacing Masque is a potent therapeutic masque designed to rapidly and safely exfoliate the skin, reducing fine lines and wrinkles. Followed by the Rejuvenating Masque, softening and intensely hydrating the skin, this incredible treatment revitalizes the skin and awakens the senses.

The Marina Experience Peel

This peel is devised for the reversal of the most typical signs of aging- fine lines and wrinkles, sun damage and age spots. The most suitable candidates for this more active TCA treatment, are those with resilient skin who suffer from dramatic wrinkling, sun damage or even acne scarring. The 20% TCA formulation will produce an overall skin improvement in tone and texture, coupled with plump luminous skin.

Permanent Make Up / Microblading

Also known as Micropigmentation, this procedure carefully implants natural pigments into the dermal layer of the skin. This state of the art technique is medically proven and specifically designed to be completely safe. Used for a variety of cosmetic enhancements such as permanent eyebrows, eyeliner and lip liner/color. Also effective for camouflaging scars.
